NOT FOR CONSTRUCTION

These design control drawings represent visual concepts and construction recommendations only. Nina van Styrum does not accept any responsibility for the structural appropriateness or integrity of completed scenic/exhibit structures, and no engineering specifications are implied herein. All materials and construction must comply with the most stringent applicable fire, safety and building codes. Written dimensions shall have precedence over scaled dimensions. If a discrepancy is discovered as to which is correct, the fabricator shall contact Nina van Styrum to determine.

the beat bit
a personal device that visitors receive at the chterentrance. This dicive is an item that will save every sound rhythm and beat they create, as for it being a scanning device for saving every rhythm or beat visitors find interesting. This device can be linked to an interactive table in the last area of the exhibit. All the recorded and saved rhythms and beats can then be heard. At these stations the opportunity to mix and match your rhythm and beats together to make the sound and rhythm you like!
